The Meeting

On behalf of the Scientific and the Organizing Committee, we are pleased to invite you to participate in the 3rd European Zebrafish Husbandry Meeting, taking place in Naples, Italy, from 1-3 October 2026.

EZHAM 2026 is organized by the [University of Naples Federico II](#), the [Zebrafish Husbandry Association \(ZHA\)](#), and [Fondazione Guido Bernardini](#).

The meeting will focus on zebrafish facility management, husbandry, and fish housing-related topics. Participants will explore the latest scientific advances in aquarium systems and zebrafish care, with particular attention to animal health and welfare.

Over three days, the programme will feature a range of scientific sessions covering research, innovation, technology, management strategies, and best practices.

EZHAM 2026 will include presentations and interactive discussions led by distinguished international experts. The event will also provide valuable networking opportunities.

The meeting is expected to attract a broad audience, including facility managers, principal investigators, technicians, PhD students, and veterinarians from across Europe.

For those unable to attend in person, remote participation will be available through an online access option, enabling global attendance.

For information regarding advertising, exhibition, or sponsorship opportunities, please contact:
secretary@fondazioneguidobernardini.org

Why you should support EZHAM 2026

EZHAM2026 is a great opportunity to meet and network with experts and staff involved in zebrafish facility management!

During the three-days meeting, sponsors and exhibitors will have the chance to:

- Introduce new products and product updates with the opportunity for feedback and discussion
- Raise your company profile to a targeted and engaged audience
- Network with other industry partners and professionals
- Increase product exposure
- Participate to the programme sessions, talks of actual research work of the field of fish care and husbandry management

We offer a variety of choice of sponsorship and exhibition opportunities for companies wanting to promote themselves at the meeting.

The range of sponsorship packages on offer have been designed to cater for all budgets. For more details go to the upcoming pages.

Scientific Programme

The program includes Oral Presentations, Poster Sessions and one Workshop on *Severity classification in zebrafish and their larvae*

Main topics are:

- Reproducibility and reporting of zebrafish husbandry in research
- Sexing and sex differences
- Other fish models (killfish, medaka, *Danionella cerebrum*, etc)
- Colony management
- Abiotic factors impacting zebrafish life
- AI / deep learning
- Toxicity trials (in particular with nanoplastics)
- Behavioral testing
- Severity Assessment

The Organizing Committee offers a special opportunity to the sponsors to have a technical-scientific talk during some speaking slot. Please note that this opportunity is first-arrived-first-served.

The Venue

The Conference will take place in new Dipartimento di Medicina Veterinaria e Produzioni Animali, Via Marco Rocco di Torre Padula 35, Naples.

The Congress Room has a wide surrounding area for exhibitors, coffee breaks and poster sessions

Coffee breaks, daily lunch and networking areas will be held

within the main exhibition areas. Exhibition spaces are limited and will be allocated on a sponsorship level basis (detailed below) and within each level a first-come, first-served basis

(multiple choices are available).
